

Specifications:

Backing Components: High performance precoat, fiberglass reinforced thermoplastic laminate with post-consumer fiber matrix secondary

Backing Weight: 84-87oz./yd²

Product Width: 24" x 24"

Testing:

Flammability: (Flooring Radiant Panel ASTM-E-648I) Class I (direct glue-down installation only; compliant with face construction)

Smoke: (NSB Smoke Chamber ASTM-E-662) < 450 Specific Optical Density

Indoor Environmental Quality: (Total Volatile Organic Compounds) < 500 micrograms/m²/hr (meets CRI Green Label requirements); Contains no 4PCH (4-phenylcyclohexine) or plasticizers

Electrostatic Propagation: (AATCC-134) < 3.5 KV at 70° F at 20% RH

Moisture Resistance: (British Spill Test) Passes

Installation:

Full spread direct-glue down; using a wide range of adhesives and seam sealers with CRI 104-standard for commercial carpet installation requirements.

Warranty:

Lifetime Commercial Warranty against: Wear, Delamination and Tuft Bind Failure.
