Time is an infinite artist: Every surface is its canvas. **TIME EXPOSURES** is inspired by that point in time where age becomes beauty, vulnerability becomes authenticity, and the future becomes the present.
This textural collection encompasses the beauty of materials’ vulnerability to the elements, embracing these visual effects that authenticate over time.
Two 9" x 36" carpet tile styles available in 12 colors each. Various tip-sheared textures reflect subtle oppositions of light and shadow. Each style is beautiful on its own and can be combined to allow for a creative interplay of color, pattern and light.
