because flooring matters.

Description

Scratch and scuff resistant Wall Base from Patcraft offers superb flexibility and superior performance properties meeting the requirements of designers and installers. Wall Base features a ribbed back design for more secure adhesion and is available in seventy colors.

Product Highlights

1. Available in 70 versatile colors.
2. Wall Base is Thermoplastic (TP) rubber. Uses less energy to produce; Very flexible; Growing segment replacing vinyl wall base and SB (styrene based) rubber.
3. Wall Base is sold in 4" x 120' rolls/coils.
4. Running line Wall Base is considered cove/toe. Straight/toeless base is also available as a custom option in both 4" and 6" formats. Please note—these options are primarily for large orders/annuity accounts.
5. Preformed corners are not available. See installation guidelines for specific instructions.
6. Wall Base is backed by a five year warranty.
7. Adhesives are available in 1 gallon buckets and in tubes sold by the carton.
