Color Variations of Adesa ELVT

Images represent shade variation only. Samples should be used for color.

Shade variation is inherent in all wood visual products. Shade and texture can vary slightly or significantly from piece to piece within a color. V1 shade variation has little or no change from piece to piece, where a V4 will have a large variety of color and/or texture changes.

Prior to any installation, a range of tiles should be approved by the customer on V3 and V4 colors.

**CONSTRUCTION**
Patent pending extruded core. Inert product making it one of the most dimensionally stable products on the market and will not expand or contract.

**INSTALLATION**
No acclimation time needed, and angle-tap installation installs 12x faster than comparable products, reducing labor costs & time.

**WARRANTY**
15 Year Limited Commercial Wear
Lifetime Limited Structure
Lifetime Limited Waterproof
Lifetime Pet Warranty

**EXOGUARD FINISH LAYER**
With enhanced durability to the surface layer resists against scratching, scuffing, chips and dents

**20 MIL COMMERCIAL WEAR LAYER**
Protects against excessive wear

**PRINT FILM LAYER**
Laminated directly to the COREtec core protects against excessive wear

**COREtec XRC WATERPROOF CORE**
COREtec with XRC technology construction features a dense high-performance core (1900–2000 kg/m³) that provides stability and prevents expansion and contraction.

**CORK UNDERLAYMENT**
With added sound benefit

**PROVIDES SOUND ABSORPTION THROUGH THE FLOOR, REDUCING NOISE FROM FOOT TRAFFIC.**

**SOLID LOCKING LVT FEATURING A WATER-PROOF CONSTRUCTION, PROVIDING PROTECTION FROM TOP-DOWN MOISTURE.**

**NO TELEGRAPHING – REQUIRES LITTLE TO NO FLOOR PREP AND HIDES MOST SUBFLOOR IMPERFECTIONS.**

**EXOGUARD FINISH LAYER**
With enhanced durability to the surface layer resists against scratching, scuffing, chips and dents
