Life & Style
Rugged Beauty for a Lifetime.

Influenced by the evolution of living spaces in multi-unit commercial settings, LIFE & STYLE embraces the versatilities of high performance carpet tile and broadloom to create a seven style collection. The result is a collection of contemporary organic elements juxtaposed with soft geometrics to create a balance between masculine and feminine design elements.
Function Meets Fashion.

With more communities showing interest in using carpet tile in some areas with broadloom in other areas, this collection features the functionality of three tile and four broadloom styles.
Flexible Living.

Use the carpet tile to define space and create easy wayfinding cues or area rug effects. **Bohemian** offers a large scale broadloom pattern that can also be used as an asymmetrical corridor option.
Performance That Pops.

The LIFE & STYLE collection is designed to be beautifully durable. Using Solution Q Extreme®, our highest performing fiber that repels acid-based stains and can be cleaned with just water, this collection offers seven products with dynamic patterns and color options that are easy and less expensive to maintain.
Multiply Your Options.

The three modular styles are backed with EcoWorx® high performance modular backing, and the four broadloom styles are backed by EcoWorx® Performance Broadloom (EPBL) providing a moisture barrier, making it ideal for senior living and multi-family environments. Even if the residents don’t require this backing, it is ideal in a residential setting for pets or children. The entire collection has severe and heavy TARR ratings so all products can be used with confidence in heavy traffic areas. Like all of our carpet products, LIFE & STYLE is Cradle to Cradle™ certified.
