Time is an infinite artist: Every surface is its canvas. **TIME EXPOSURES** is inspired by that point in time where age becomes beauty, vulnerability becomes authenticity, and the future becomes the present.
Two 9” x 36” carpet tile styles available in 12 colors each. Various tip-sheared textures reflect subtle oppositions of light and shadow. Each style is beautiful on its own and can be combined to allow for a creative interplay of color, pattern and light.
