CASE STUDY

NATIONAL CHURCH RESIDENCES
COLUMBUS, OH
DESIGN BY TONIA BIGGS, PROCUREMENT SPECIALIST, ENGINEERING, ENERGY & PROCUREMENT SERVICES, AND TRACY KRAFT FF&E PROCUREMENT AND DESIGN LEADER

CREATING A WARM, INVITING ENVIRONMENT FOR THE SENIORS WHO LIVE IN THEIR RETIREMENT COMMUNITIES IS OF THE UTMOST IMPORTANCE. DESIGN IN SENIOR LIVING COMMUNITIES IS FOCUSED ON CREATING A SAFE SETTING THAT ENHANCES THE HEALTH AND WELL-BEING OF THEIR RESIDENTS.

INSPiRE

Based in Columbus, Ohio, National Church Residences is a non-profit with a mission “to continually improve communities by transforming the way seniors and vulnerable populations live and thrive.” As they set out on their latest project, they sought high quality flooring that would allow more seniors to live comfortable, active lives.

Comfortable Healthy Spaces

CREATE

The nationwide organization has clear guidelines for the interior design of its properties, and the Patcraft products fit into that concept very well. Some of the factors that make Patcraft flooring perfect for National Church Residences’ properties include durability, style, price, warranty, and sustainability.

National Church Residences cites being sound managers of resources with solid, ethical business practices as a key part of their mission. Patcraft’s commitment to recyclability appealed to them.

Sustainable Innovative Flooring

TRANSFORM

At any National Church Residences property, you will find a variety of activities happening at almost any time. The carpet and resilient need to hold up to extensive foot traffic, food spills, rolling carts and more. Patcraft flooring does that well.

Transform Living with Patcraft

"WE HAVE NEVER BEEN DISAPPOINTED IN PARTNERING WITH PATCRAFT FOR OUR FLOORING NEEDS.”

Tonia Biggs, Procurement Specialist, Engineering, Energy & Procurement Services
