HOW DO WE TRANSFORM LIVING FOR THE FUTURE?

PULASKI SQUARE, COLUMBIA, SC
design by Woda Group, Inc.

IN THE US, HOUSEHOLD SIZES ARE SHRINKING. A NEW POOL OF DIVERSE RENTERS WITH A VARIETY OF WANTS AND NEEDS ARE EMERGING AND OCCUPYING MULTI-FAMILY HOUSING.

INSPIRE

Anticipate Innovation. Elevate Style.

Demand for desirable urban living with easy access to shopping, dining, parks and lifestyle amenities continues to grow. Today's multi-family housing is all about creating experiences.

CREATE

Improve Living. Enhance Appeal.

Multi-family housing brings convenience, amenities and aesthetic appeal, but can come with the challenge of acoustics, privacy and attracting and retaining tenants.

Patcraft understands these challenges and provides flooring solutions for this transitioning environment – offering sound dampening backing and chic colors and patterns that improve wayfinding and elevate living environments.

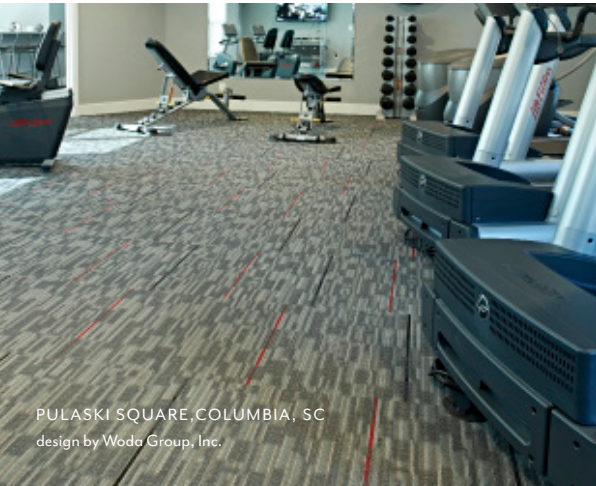

TRANSFORM

Multi-family housing that incorporates elevated flooring visuals and new innovations including acoustic friendly flooring, innovative, convenient services and style will help create an unmatched lifestyle for tenants.
